

Thunder Bay  
Chamber  
of Commerce

For Immediate Release

December 12, 2008

## BRINGING BACK OUR HOME GROWN TALENT

The Thunder Bay Chamber of Commerce and the Ambassadors Northwest are working together to provide a future for our homegrown talent to come back to Thunder Bay and region. "This is a very exciting project for the Thunder Bay Chamber of Commerce and the Ambassadors Northwest; to showcase jobs that the business community has available, stated Lisa Sticca, Chair of the Board, Thunder Bay Chamber of Commerce. "We have the opportunity to let the public know that Thunder Bay has diversified and there are jobs available right here in our region."

"We are working to keep our youth and talent right here in our region", stated Jim Peterson, Ambassadors Northwest, "and together with the Chamber we are doing just that. With the diversified economy, we are letting everyone know the opportunities right here in Thunder Bay."

**The Holiday Career Festival - "Where Skills and Needs Meet" is happening at the Thunder Bay Community Auditorium on Tuesday, December 23<sup>rd</sup> from 1:00 pm to 4:00 pm.** Thanks to our sponsors, there is no cost for the businesses or for the people who want to come and see just what is available, right here, in our home town.

Help us bring together the skills with the opportunities you may have in the area of jobs or businesses. "If you have a need for skilled, educated employees and have REAL job openings or if you have a business for sale, or are looking at retirement in the near future, call the Thunder Bay Chamber of Commerce. We have grown the talent, experience, and the skills - lets help them come back home."
